

Class 1

Building Product Information Sheet

About this template

This template has been developed to help Aotearoa/New Zealand-based manufacturers and importers provide the information required by the Building (Building Product Information Requirements) Regulations 2022.

Note that the Ministry of Business, Innovation and Employment is not responsible for the product information added into this template.

How to use

- › Download and save this form in your computer
- › Collate the required information about your product
- › Fill in the template and remove page 1 (this cover page)
- › Publish the filled in template on your website.

Background

New regulations have been made to provide building product users with a minimum level of easy-to-understand information about building products.

Visit the Building Performance website for more information.

The new regulations were developed to:

- › help designers, builders and consumers choose the right products for their needs, install them correctly and make informed decisions about using alternative products if required.
- › enable more efficient consenting by providing building consent authorities with the right information, so it is readily available to check that plans will meet the Building Code.
- › reduce the chance of building defects, less building rework, more efficient consenting, and safer and more durable buildings.

Types of building products

There are two classes of designated building product as defined in the regulations.

- › A class 1 product under the regulations are mass-produced or produced in batches to a general specification. For example, cladding products, mechanical fixings, insulation products, internal lining, roofing products, structural wood-based products, structural steel and reinforcing products, sanitary plumbing and drainage products, including tapware.
- › A class 2 product under the regulations is based on a line of products where each unit is customised to the specification of an individual client. For example, external window joinery and doors that have been customised.

Each class has slightly different disclosure information requirements, but the main distinction is when the information must be provided. The intent is that consumers have access to information about a building product before they purchase it.

Visit the Building Performance website for more information and for resources to help you comply with the regulations.

NOTE:

This is a **SUGGESTED** template and is **NOT MANDATORY** to use. **ALTERNATIVELY**, you may choose to publish your product information directly on your website or develop your own template, so long as the information required by the regulations is provided. It is recommended that where appropriate, you reuse existing information and data that you may already have about your building product.

Class 1

Building Product Information Sheet

Product name *(include the brand name)*:

Other product names *(variant, sub-variant, functional name, etc. if applicable)*

Product identifier *(if applicable)*:

This could be a Global Trade Item Number (GTIN) or any other distinguishable part/model number or identifier

Product description and its intended use *(measurements, materials, usage)*:

Place of manufacture: ☐ Aotearoa New Zealand ☐ Overseas

Legal name of the manufacturer(s):

Trading name of the manufacturer(s):

New Zealand Business
Number (NZBN):

--

Other Legal Entity Identifier (if available):

--

Address for service:

STREET NAME	SUBURB
-------------	--------

CITY, COUNTRY	POSTCODE
---------------	----------

Website:

--

Email address:

--

Phone no. (if applicable):

Legal name of the importer (if applicable):

Trading name of the importer (if applicable):

--

New Zealand Business
Number (NZBN):

--

Other Legal Entity Identifier (if available):

--

Address for service:

STREET NAME	SUBURB
