A sophisticated sleek powerful 900mm cooktop...

Induction cooktops use magnetic energy to heat cookware, making the pot itself the heating element. This provides rapid, precise temperature control and keeps the cooktop surface cooler and safer. Zoneless induction technology allows flexible placement of pots, automatically detecting their size. The Energy Saving 900mm Series 6 features two independent inductors with touch sliders for easy adjustment, Eco mode to reduce power usage, and Quick Menus for fast, efficient meal prep.

Impressive 7 Year Warranty

Note: 7 year warranty is for domestic use only.
