GENERAL ADVICE

POLYCARBONATE SHEETS (Panels)

Polycarbonate sheets may scratch so be careful what you clean them with.

Do not use solvent cleaners to clean the sheets.

Polycarbonate sheets have sharp edges. Use safety work gloves while handling them.

Remove about 2 inches of films from all edges before installing. Use the sheets as intended.

Remove all films after the construction is completed.

The UV-protected side of the sheet is covered with a layer of opal white film and must face the sun.

SITE SELECTION

The greenhouse should be placed in an area that receives direct sun light and gets shielded from wind.
The surface must be level.
