|                          |                                                                                                                                                                     |                                       |                      |                                                                                                                                                                                                                                                                                 |

Step 5 : Attach the support legs (I) to the slats (H) and center rail (G).

Step 6 : Tighten the 4 Corner with Allen Key (O). Install the bed slats to side rail. Tighten the slats with CSK screw. The distance of the slats should be sufficient to obtain desirable bed stability.
